

# RANSOME MANUFACTURING

*Manufacturing and Equipment Distribution*

The Ransome 9V Relight System protects against pilot outage due to unusually turbulent atmospheric conditions.

The 9V Relight System option is for use in the field where 110V line power is unavailable.

Unit operated by two 9V batteries and Solar Panel.

## 9V Relight System (with Solar Recharger)

### TYPICAL INSTALLATION

The Ransome 9V Relight System is available for RH50, RH80 and RH120 Models only.

Description	Part Number
9V Relight System	XE0120-009
