Together, we can safely and reliably transfer and deliver LP Gas.

The **Circle of Safety** is an integral part of every Parker LP Gas hose assembly. Through the Circle of Safety, Parker stands behind the integrity of every LP Gas hose assembly fabricated to Parker specifications.

Parker LP Gas hose assemblies are designed, tested and qualified as a system to meet the highest performance standards in the industry, including UL 21, CGA Type I and DOT. For more information visit www.safehose.com or contact Parker at 866 810 HOSE (4673).

You may choose to buy a new cab and chassis from your local truck dealer or work with one of Ransome's trusted partners. We have relationships with truck dealers local to each facility in Fresno, CA and Tyler, TX who understand the requirements for propane bobtails.

When ordering a new chassis for a changeover of a used barrel, please consider:

*** Is the pump located on the driver's side or the curb side of the tank?**

The new chassis' exhaust must be on the opposite side from the pump flange.
The transmission must have a PTO gear accessible on the same side as the pump flange.

*** Will the cab to rear axle dimension be the same on the new truck as it is on the old truck?**

If you are reusing the existing deck and skirting, it will need to be the same dimension.
If you are installing a new Ransome deck, it may be necessary to change the cab to axle measurement. Adjusting the wheelbase may better distribute the tank and fuel weight.

Custom Paint and Logo Decals are applied to your specifications.

Add Control Functions to your Remote Transmitter for Emergency Shutdown.

Pull-away Protection Systems are available with Brake Lock or Auto Neutral on Allison Automatic Transmissions.

The latest technologies in Electronic Registration, Data Management and GPS tracking are available.

You Can't Buy A Better Reel.

When it comes to fuel delivery reels, Hannay consistently sets the standard for ground-breaking innovation and proven performance. Remember, only Hannay reels are built to your specific application for a perfect fit every time.

STOP Manual Posting In the Truck & Office

EZ-COUNT Mobile Software

FEATURES:

- Electronically Transfers Delivery Data To and From Your Back Office System
- Automatically Captures Delivery Information
- FREE Technical Support
- Easy to Operate, Easy to Install
- Uses Off the Shelf Memory Storage
- Pre-buy Tracking
- Full Control of the LCR Register
- GPS Compatible
- Captures Tank Locations
- Wireless/Cellular Data Transfer From Truck to Office

BENEFITS:

- Increase Overall Operating Efficiency
- Eliminates Manual Posting
- Eliminates Clerical Errors
- Low Cost Start-up
- Decrease Customer Inquiries
- Download Captured Tank Locations to Garmin Navigator for New Drivers

Add GEC's EZ-Count Mobile Software to your Liquid Controls DMS.

Get an Additional Discount & Extended Three-Year Warranty

Bundling an LPG truck pump, meter and register saves you time and money...

When it comes to ease of doing business, product functionality, and breadth of product offering, Liquid Controls Group is your single-source solution for transporting, dispensing and controlling high-value fluids and gases. On your next order, let Liquid Controls Group simplify your procurement process by purchasing a pump, meter and register on a single order.

Discount pricing and improved warranty program...

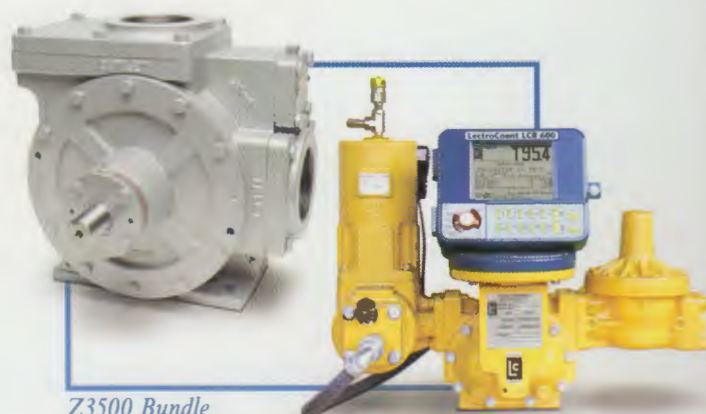

For a limited time, when you buy a Z-Series LPG truck pump, meter and register bundle, you will receive an **additional discount and an extended three-year warranty**. This applies to Corken's Z2000, Z3200 and Z3500 pumps and any Liquid Controls' meter and register. Additionally, if you are replacing a competitor's pump on a truck that has a Liquid Controls meter, you will also qualify for the discount pricing and extended pump warranty. The same goes for the meter. If you are replacing a competitor's meter on a truck that has a Corken pump, you will be entitled to the discount pricing and an extended meter warranty as well.
