Stamping Anvil and Cylinder Wrench

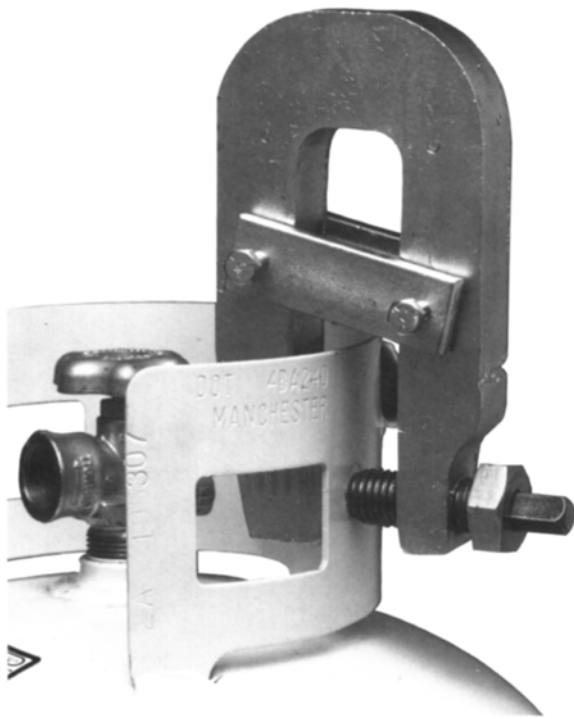

Cylinder Stamping Anvil

The Ransome Manufacturing Cylinder Stamping Anvil. All Dot cylinders are required to be permanently stamped with inspection dates. This original inspection is good for twelve years. All other stampings (inspections) are to occur every five years thereafter.

By holding the stamping surface ridged, this sturdy anvil prevents damage to the cylinder collar.

It also has an adjustable height bar which easily aligns the stamping dies.

Actual size: 4 in. wide x 7 in. high
Weight: 5 lbs.

Letter "E" and Die Set 0-9 sold separately.

Cylinder Wrench

The Ransome Manufacturing Cylinder Wrench is a heavy duty "Fits All" type of wrench.

- It is constructed of 1/4 in. & 1/2 in. thick steel.
- Easily adaptable to all types of valves.
- Designed for those hard to reach places.
- Electroplated to inhibit rust.
- You only need a bar or piece of pipe to use.

Actual size: 2-1/2 in. wide x 9-3/16 in. high
Weight: 7 lbs.
