

Ransome Tanks are built to the highest standards demanded by customers who want their investment to last with little or no maintenance

Standard Features

- To increase longevity and assure a surface preparation clean of all rust and mill scale, each tank is thoroughly shot blasted before painting.
- After priming and applying a finish coat 3 mills thick, all tanks are cured under heat lamps to produce a protective coating that is not only attractive but so durable it will last for many years.
- Other features include extra heavy legs with anchoring holes that will not collapse under severe snow loads or if accidentally dropped.
- Forged steel lifting eyes that do not bend during moving or setting tanks.
- All tank fittings are neatly tucked under a well vented protective dome.

Fittings

- Filler Valve
- Service Valve
- Fixed Liquid Level Bleeder Valve
- Relief Valve
- Float Gauge
- Top Mounted Emergency Liquid Withdraw
- Plugged Bottom Liquid Outlet on 325 gallon tanks and larger

SIZE	DIAMETER	OA HEIGHT	OA LENGTH
